EnClean® BRUSH

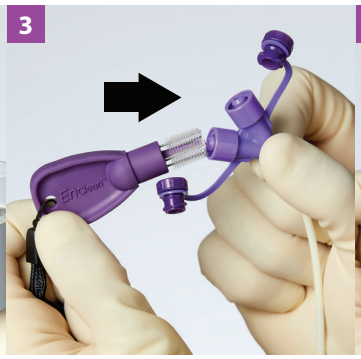

Reusable. Instructions-For-Use.

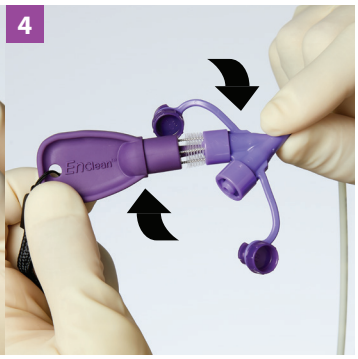

Remove brush cap.

Water bristles with clean water.

Insert the wet bristles into the ENFit® Connector until they reach the bottom. Make sure the plug is inserted into the opening.

Rotate the EnClean® Brush to clean the inside and bottom of the EnFit® Connector.

As you clean the connector, rinse the bristles in clean water to remove any debris. Repeat steps 4 and 5 until the connector is clean.

After you have cleaned the connector, rinse the bristles with antiseptic mouthwash then replace cap.

Stand upright to dry (as shown). Now your brush is clean and ready to use again.

The **EnClean® Brush** is designed to clean and remove debris from the ENFit® enteral connector.

Ordering Information.

Item Code	Description	Quantity
ENC2	EnClean® Reusable Cleaning Brush	10
ENC1	EnClean® Single-use Cleaning Brush	100
