bringing technology to life

Warmer patients. Better outcomes.

SNUGGLE WARM® CONVECTIVE WARMING BLANKETS REFERENCE CARDS

TEMPERATURE MANAGEMENT

LEVEL 1®

At Smiths Medical, we believe that innovation goes well beyond products. That is why we collaborate closely with clinicians to ensure that all of our Level 1® products and services satisfy our customers' needs. **As a leader in temperature management, Level 1® convective warming products provide a comprehensive selection of innovative blanket styles for a wide variety of surgical procedures.** Throughout the perioperative period, Snuggle Warm® Convective Warming Blankets are proven and dependable, improving patient outcomes every day.

Snuggle Warm® Convective Warming Blankets are:

LEVEL 1®

- Made of soft fabric-like material that is comfortable next to patients' skin — no hot plastic
- Strong and durable — resist tears, punctures and fluids
- Designed to conform to the patient, reducing the need for tie-downs
- Made of foldable blanket material to allow for easy access to the patient
- Equipped with precisely positioned air holes and channel design to maximize heat delivery
- Latex-free and radiotranslucent
- Available in multiple configurations for a broad set of clinical applications

203 cm (80 in.)
102 cm (40 in.)
Snuggle Warm®

SWU-2001

Full Body Blanket

102 x 203 cm
40 x 80 in.
Includes non-inflating foot drape

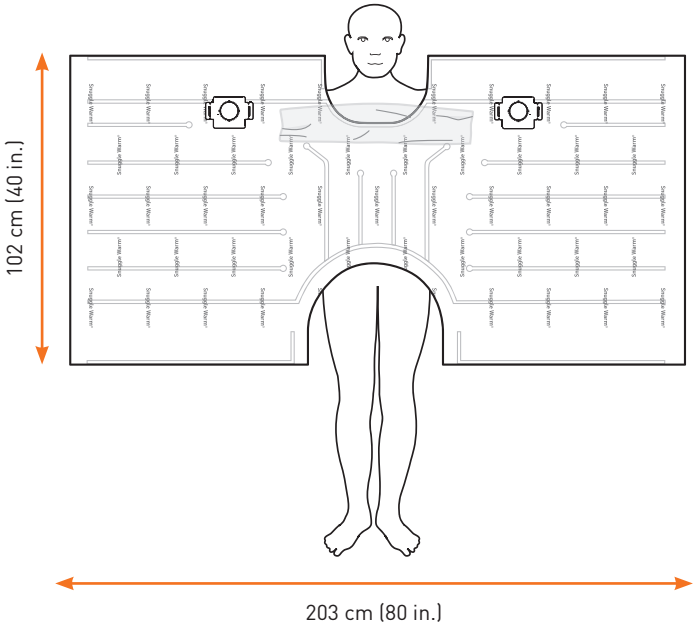

Recommended for use in these procedures:

- Pre-operative and post-operative warming
- Bariatric
- Neurological
- Ear, nose and throat
- Trauma

Key attributes of the SWU-2001:

- Large size ensures maximum coverage for all patient sizes

LEVEL 1®

102 cm (40 in.)
203 cm (80 in.)

SWU-2003

Upper Body Blanket

203 x 102 cm
80 x 40 in.
Includes non-inflating flaps

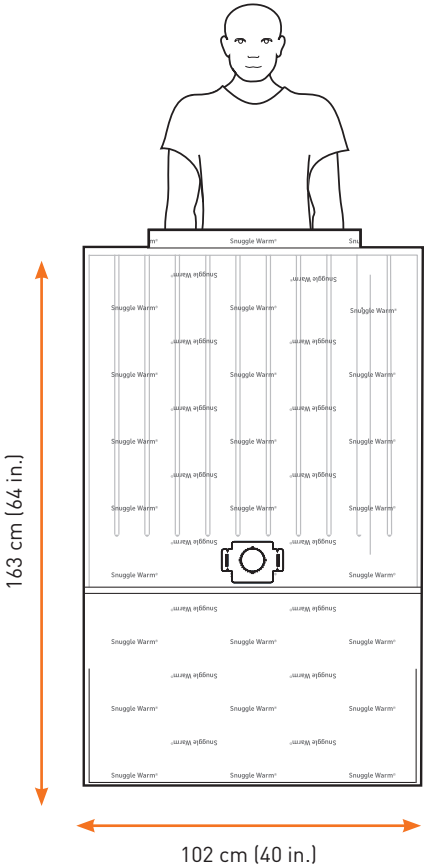

Recommended for use in these procedures:

- Lower extremities (hips, legs, knees, ankles)
- Gynecology
- Urology
- Open abdominal
- Laparoscopic
- Bariatric

Key attributes of the SWU-2003:

- Accordion-style chest panel accommodates large and small patients
- Clear plastic drape captures and delivers warm air around the patient's head

LEVEL 1®

163 cm (64 in.)
102 cm (40 in.)

SWU-2004

Lower Body Blanket

102 x 163 cm
40 x 64 in.
Includes non-inflating foot drape

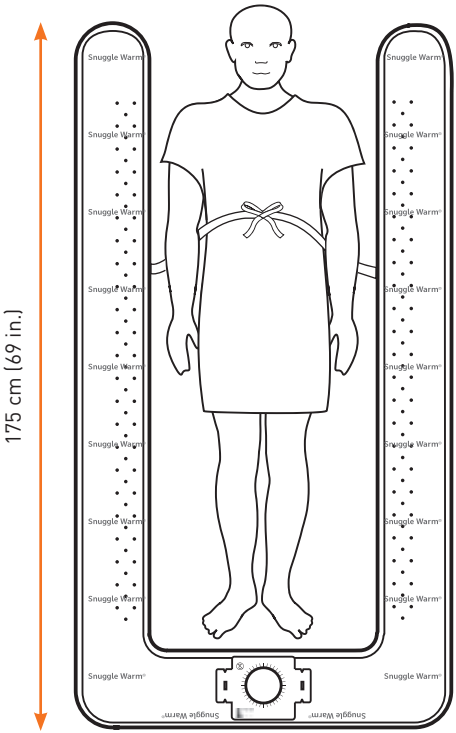

Recommended for use in these procedures:

- Upper extremity
- Shoulder and neck
- Ear, nose and throat

Key attributes of the SWU-2004:

- Non-inflating foot drape protects patient's feet

LEVEL 1®

175 cm (69 in.)
58 cm (28 in.)
Snuggle Warm®

SWU-2007

Tube Blanket

58 x 175 cm
28 x 69 in.

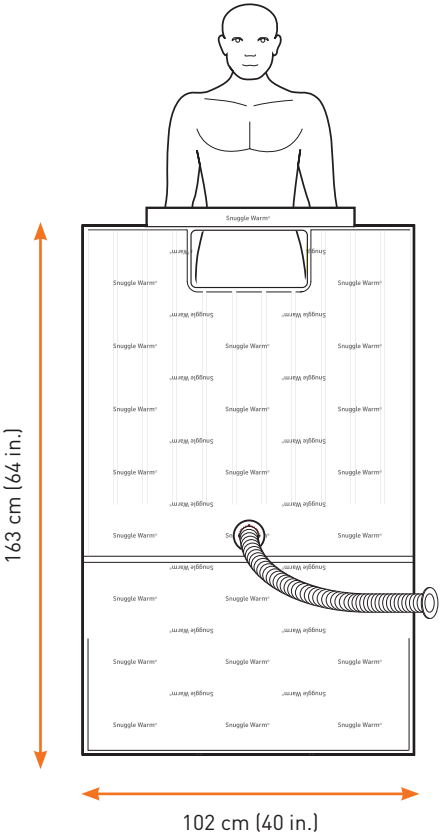

Recommended for use in these procedures:

- Interventional cardiology/cardiac electrophysiology
- Interventional radiology
- Trauma

Key attributes of the SWU-2007:

- Allows for full access to the patient

LEVEL 1®

Snuggle Warm®
163 cm (64 in.)
102 cm (40 in.)

SWU-2008

Sterile Cardiac Blanket

102 x 163 cm
40 x 64 in.
Includes non-inflating foot drape

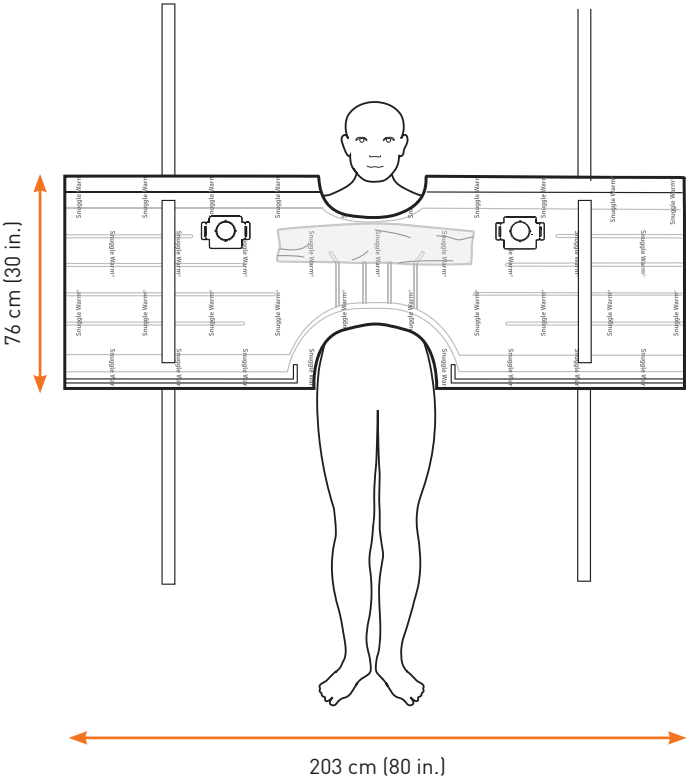

Recommended for use in these procedures:

- Cardiac bypass

Key attributes of the SWU-2008:

- Blanket can be used in the sterile field to warm the patient
- Groin window allows for visibility of femoral artery
- Sterile hose allows convective warmer to be positioned farther from the sterile field

LEVEL 1®

76 cm (30 in.)
203 cm (80 in.)

SWU-2010

Small Upper Body Blanket

203 x 76 cm
80 x 30 in.

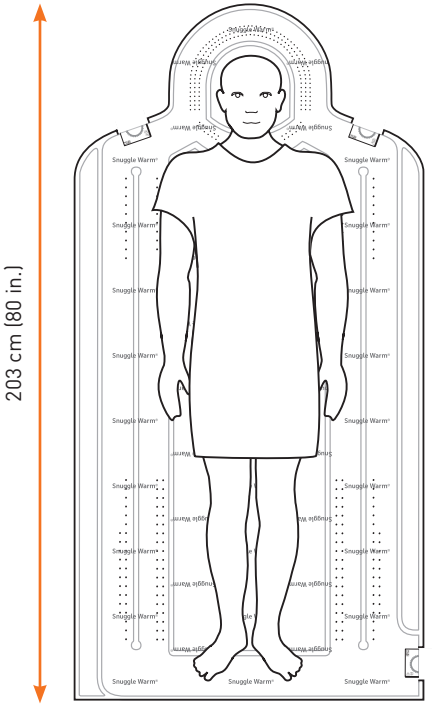

Recommended for use in these procedures:

- Lower extremities (hips, legs, knees, ankles)
- Gynecology
- Urology
- Open abdominal
- Laparoscopic

Key attributes of the SWU-2010:

- Tie-downs aid in maintaining the blanket's position
- Smaller size allows for increased access to the patient
- Clear plastic drape captures and delivers warm air around the patient's head

LEVEL 1®

203 cm (80 in.)
Snuggle Warm®
102 cm (40 in.)

SWU-2013

Adult Underbody Blanket

102 x 203 cm
40 x 80 in.

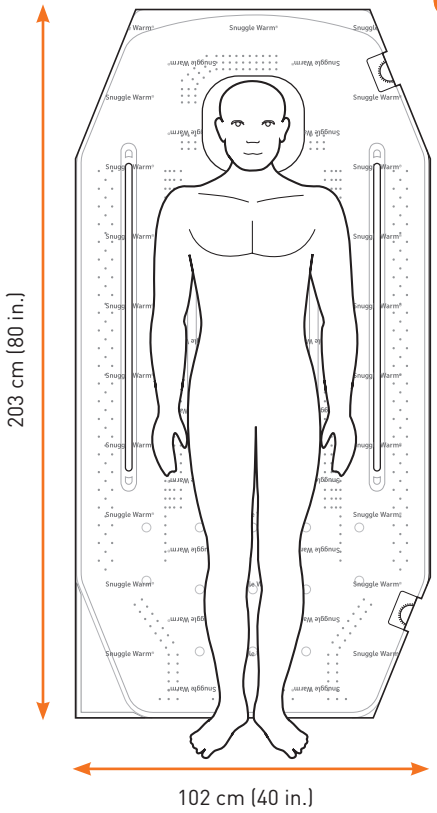

Recommended for use in these procedures:

- Cardiac
- Open abdominal
- Multi-site
- Cosmetic
- Trauma

Key attributes of the SWU-2013:

- "Halo" design headrest area allows for warming of patient's head
- Underbody blanket allows for full access to the patient
- Three hose ports for maximum convective warmer placement flexibility

LEVEL 1®

203 cm (80 in.)
102 cm (40 in.)

SWU-2113

Adult Underbody Blanket with Arm Openings

102 x 203 cm
40 x 80 in.

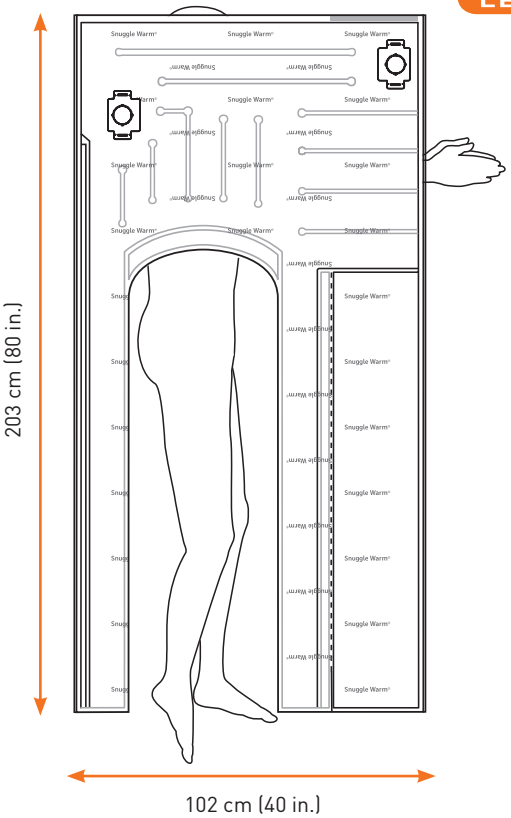

Recommended for use in these procedures:

- Cardiac
- Open abdominal
- Orthopedic
- Multi-site
- Cosmetic
- Trauma

Key attributes of the SWU-2113:

- Pre-opened arm and head openings save time
- Wide arm openings allow for easy positioning with arm(s) out or toboggan-style arm restraints
- Easily accommodates patients in a supine, lateral or prone position
- Tuck flaps secure the blanket to prevent sliding when transferring the patient to the operating table
- Underbody blanket allows for full access to the patient
- User-positioned head drape captures and delivers warm air around the patient's head and neck

LEVEL 1®

203 cm (80 in.)
102 cm (40 in.)

SWU-2014L

Left Lateral Access Blanket

102 x 203 cm
40 x 80 in.

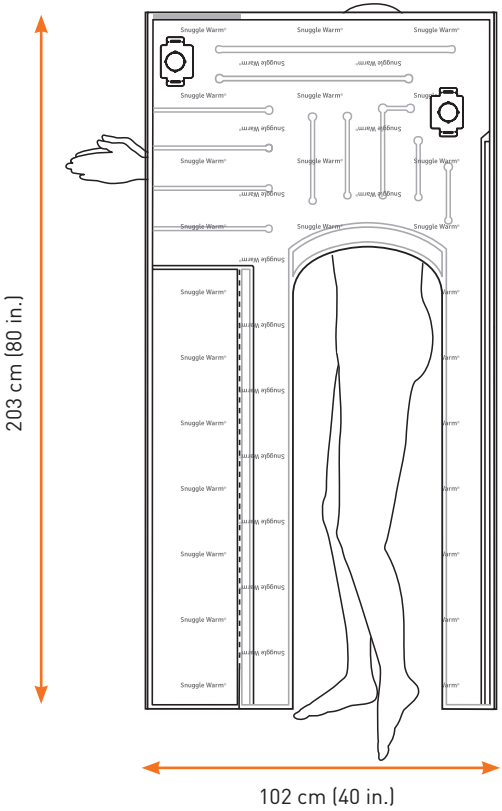

Recommended for use in these procedures:

- Hip
- Upper or lower leg

Key attributes of the SWU-2014L:

- Proprietary design optimizes lower-body procedures

LEVEL 1®

203 cm (80 in.)
102 cm (40 in.)

SWU-2014R

Right Lateral Access Blanket

102 x 203 cm
40 x 80 in.

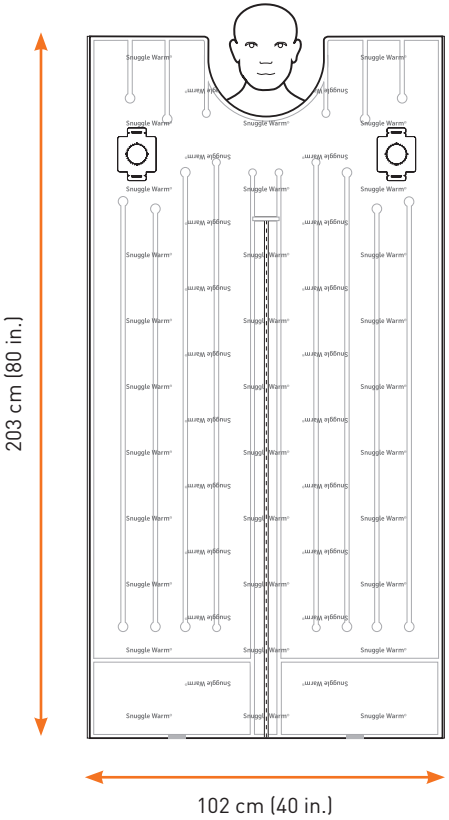

Recommended for use in these procedures:

- Hip
- Upper or lower leg

Key attributes of the SWU-2014R:

- Proprietary design optimizes lower-body procedures

LEVEL 1®

203 cm (80 in.)
102 cm (40 in.)

SWU-2016

Full Body Split Access Blanket

102 x 203 cm
40 x 80 in.

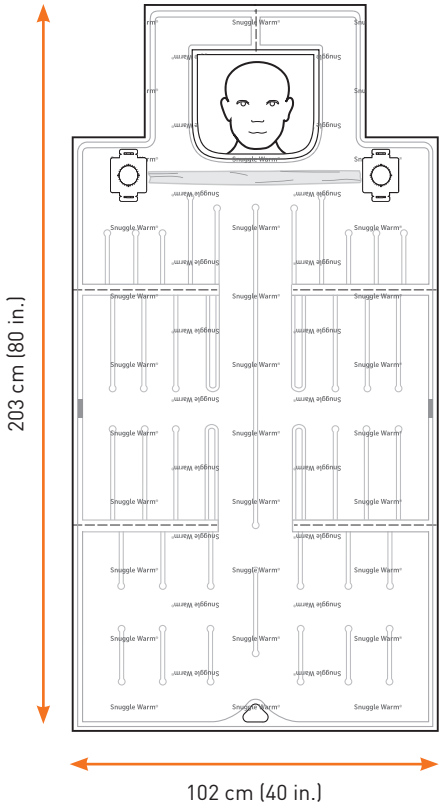

Recommended for use in these procedures:

- Knee, leg and foot
- Carotids
- Spinal
- Labor and delivery
- Gynecology
- Post-operative warming

Key attributes of the SWU-2016:

- Perforation up the middle of the blanket allows for increased patient access

LEVEL 1®

203 cm (80 in.)
102 cm (40 in.)

SWU-2018

Multi-Access Blanket

102 x 203 cm
40 x 80 in.

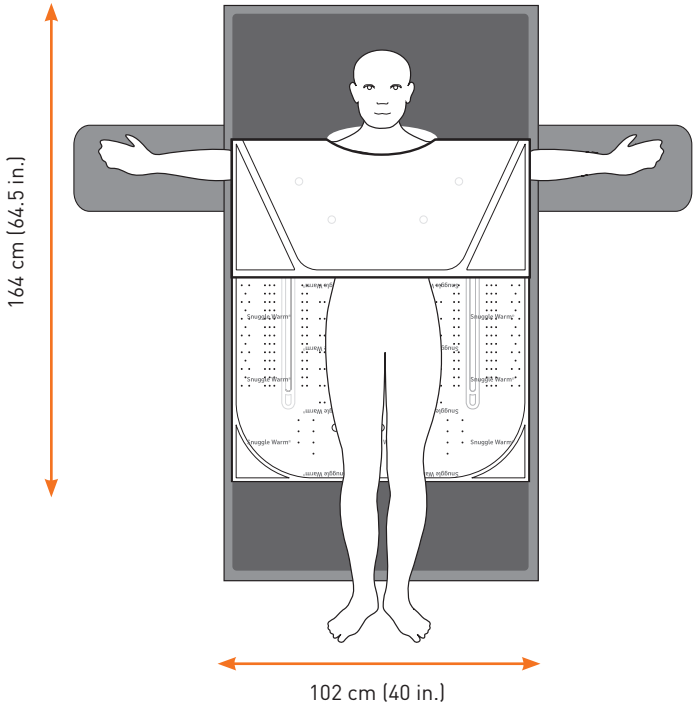

Recommended for use in these procedures:

- Post-operative warming
- Catheterization lab
- "Keyhole" (minimally invasive) cardiac surgery
- Nephrectomy

Key attributes of the SWU-2018:

- Perforations on either side of the blanket allow for increased patient access
- Clear plastic drape captures and delivers warm air around the patient's head

LEVEL 1®

164 cm (64.5 in.)
102 cm (40 in.)

SWU-2119

Poncho Blanket with Arm Openings

102 x 164 cm
40 x 64.5 in.

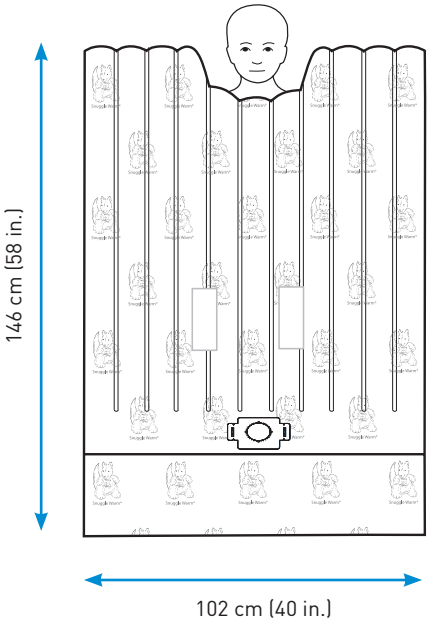

Recommended for use in these procedures:

- Urology
- Gynecology
- Labor and delivery
- Prostatectomy
- Radiology
- Abdominal
- Lower extremity (orthopedic, osteotomy, peripheral vascular disease, varicose vein, etc.)
- Pre- and post-operative warming

Key attributes of the SWU-2119:

- Reversible design allows use pre-operatively and post-operatively as an overbody blanket and during surgery as an underbody blanket
- Underbody use during surgery enables simultaneous warming of the patient's backside and the front of the upper torso
- Wide arm openings permit easy positioning with arm(s) out or toboggan-style arm restraints
- Easily accommodates patients in the lithotomy or supine position

LEVEL 1®

146 cm (58 in.)
102 cm (40 in.)

SWU-2002

Pediatric Full Body Blanket

102 x 146 cm
40 x 58 in.
Includes non-inflating foot drape

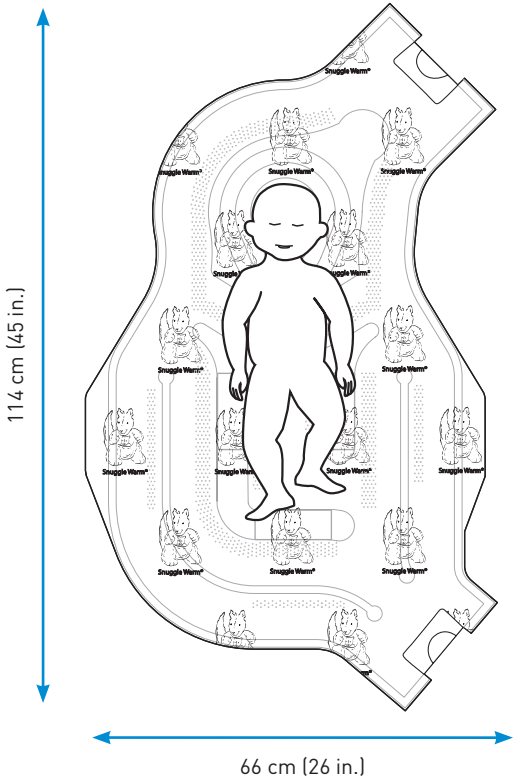

Recommended for use in these procedures:

- Neurological
- Ear, nose and throat
- Pre-operative and post-operative warming
- Trauma

Key attributes of the SWU-2002:

- Sized to fit pediatric patients

LEVEL 1®

114 cm (45 in.)
66 cm (26 in.)

SWU-2009

Pediatric Underbody Blanket

66 x 114 cm
26 x 45 in.
Includes non-inflating flaps

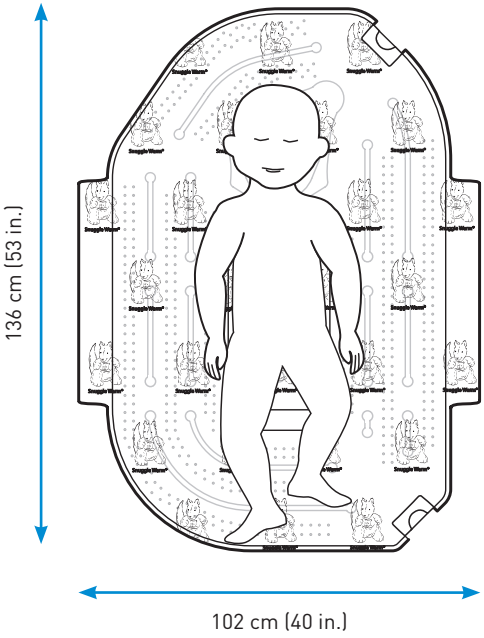

Recommended for use in these procedures:

- For patients up to 20 pounds (9.1 kilograms)

Key attributes of the SWU-2009:

- Underbody blanket allows for full access to the patient
- Two user-positioned clear plastic drapes to capture warmth in specific locations while allowing access where necessary
- Uninflated headrest for better access
- Designed with absorbent pads to minimize pooling of fluid on the blanket
- Can be used on an operating table, bed, or bassinet

LEVEL 1®

136 cm (53 in.)
102 cm (40 in.)

SWU-2011

Large Pediatric Underbody Blanket

102 x 136 cm
40 x 53 in.
Includes non-inflating flaps

Recommended for use in these procedures:

- For patients up to 80 pounds (36.3 kilograms)

Key attributes of the SWU-2011:

- Underbody blanket allows for full access to the patient
- Two user-positioned clear plastic drapes to capture warmth in specific locations while allowing access where necessary
- Designed with absorbent pads to minimize pooling of fluid on the blanket
- Can be used on an operating table, bed, or bassinet
