

STRONG.
SIMPLE.
RELIABLE.[1–4]

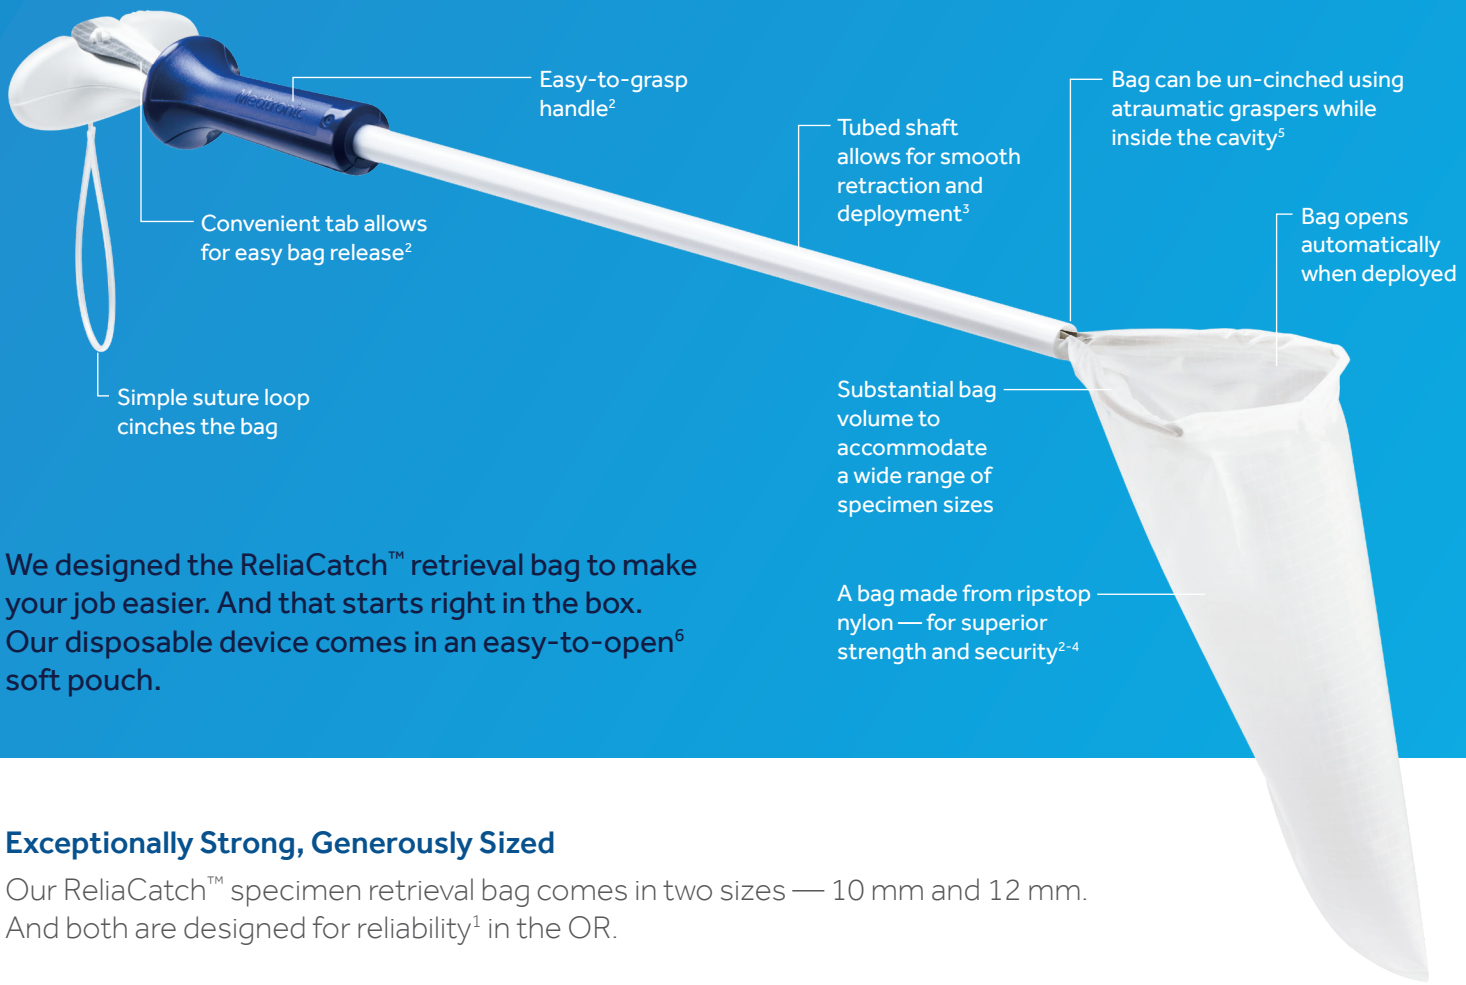

Those are the qualities surgeons told us they wanted in a specimen retrieval system.

We responded.

Introducing the ReliaCatch™ specimen retrieval bag

Medtronic
Further, Together

SPECIMEN RETRIEVAL **SIMPLIFIED.**

We designed the ReliaCatch™ retrieval bag to make your job easier. And that starts right in the box. Our disposable device comes in an easy-to-open[6] soft pouch.

Exceptionally Strong, Generously Sized

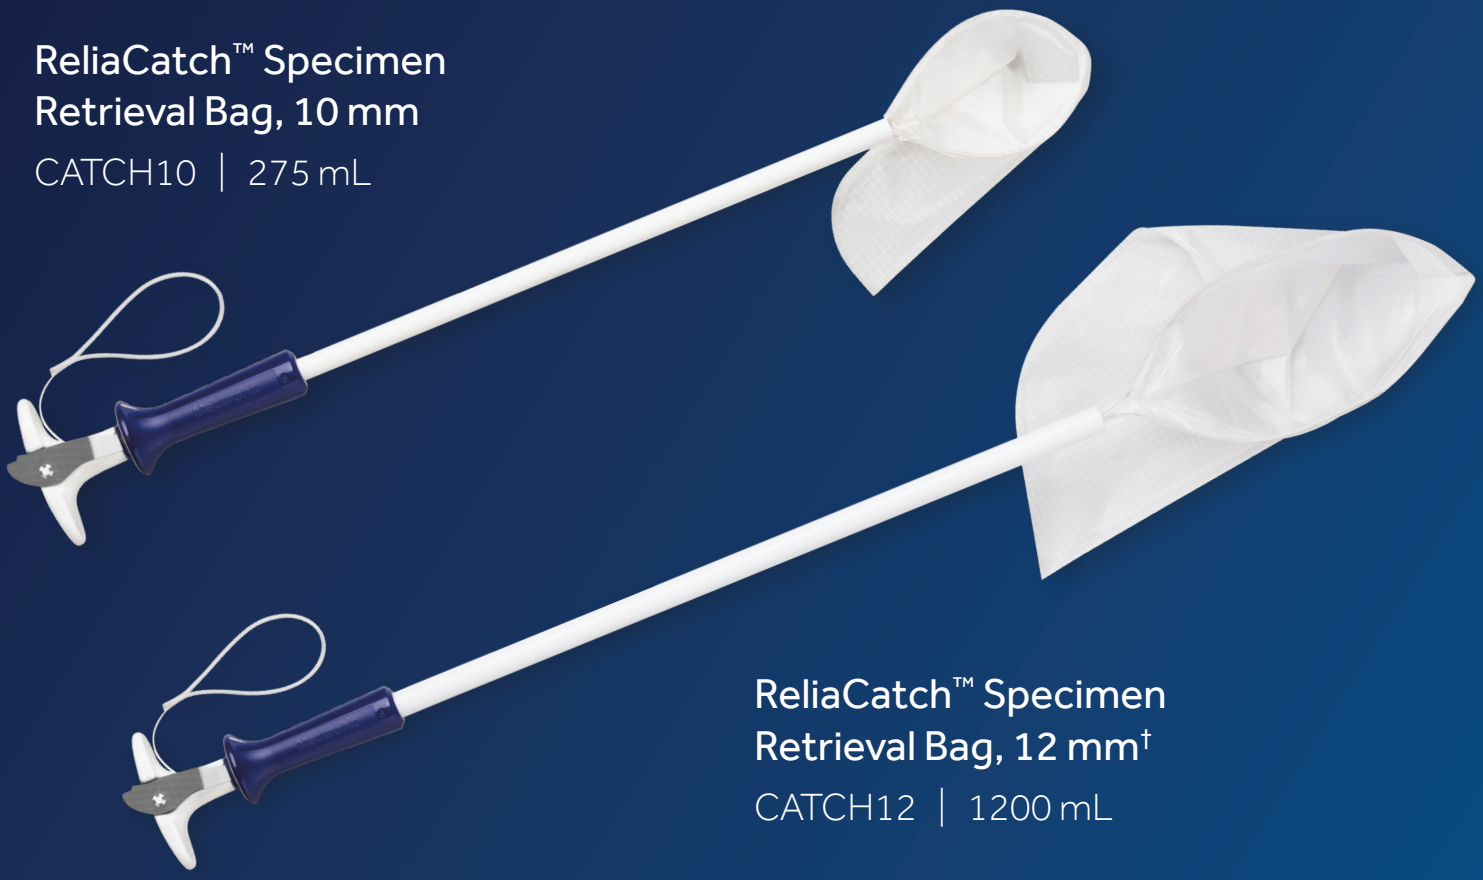

Our ReliaCatch™ specimen retrieval bag comes in two sizes — 10 mm and 12 mm. And both are designed for reliability[1] in the OR.

	SUPERIOR STRENGTH[1-3]	LARGER VOLUME[3]	EASY SPECIMEN INSERTION
	A stronger retrieval bag reduces the likelihood of the bag bursting or tearing. That's why we made our bags stronger than those of our major competitors.[1-3]	You often need a bag that holds large specimens — or several smaller ones. Our bags are made to hold more than our major competitors' bags.[3]	A wider mouth opening can simplify specimen insertion. Our 10 mm bag has a mouth opening that's larger than our major competitors, and our 12 mm bag has one that's comparable.[3,4]
The 10 mm ReliaCatch™ device delivers:	28.14 pounds per square inch in burst strength[1]	275 milliliters bag volume[3]	2.44 inches mouth opening[3]
The 12 mm ReliaCatch™ device delivers:	13.75 pounds per square inch in burst strength[1]	1200 milliliters bag volume[3]	3.36 inches mouth opening[3]

ORDERING INFORMATION

ReliaCatch™ Specimen Retrieval Bag, 10 mm

CATCH10 | 275 mL

ReliaCatch™ Specimen Retrieval Bag, 12 mm†

CATCH12 | 1200 mL

Let's make your specimen retrieval easy and reliable.
